Some of the equipment shown in this brochure is optional and may not be available on all models or in all markets. All specifications are subject to change without notice. Please contact your local dealer for the latest information.
The Musso Grand is a pickup truck in the true sense of the word, maximizing practicality and reliability.
The chrome line through the centre of the radiator grille offers a signature look, while the bonnet and sides stand out with powerful lines and curved surfaces. Circular fog lamps add a touch of sophistication.

CONFIDENT AND COMPELLING

High-intensity-discharge headlamps for better night vision; LED daytime running lights, positioning lamps and directional indicators grouped in the upper lamp housing for simplicity.

Side repeater on the back of the outside mirror.

The shoulder-wing design of the radiator grille for greater depth and a dynamic feel.
Shoulder-wing lines and wrap-around tail-lamp assemblies complete the distinctive exterior styling, while reflex reflectors enhance vehicular visibility for greater safety. The bed surface is protected by a special coating, and foldable rings at each corner of the bed can be used to secure cargo. Electrical power is also available via an outlet near the reinforced tailgate.

**Utilitarian and Unique**

Fashionable deck cover

Rear combination lamp assembly
VERSATILITY FOR THE MOST VALUE

The Musso Grand makes a great commuting vehicle and is standing by to perform the task at hand, on the farm, at the warehouse or in the field.
The seats are ergonomically engineered to ensure user remain refreshed on long trips. Pockets are built into all the doors to keep maps, water bottles and other essentials within easy reach. The centre console comes with a USB port, power outlet, and twin cup-holders, while passengers in the second-row have their own cup-holders as well as a grip on each B pillar to assist with entry and egress. The interior package is available in three colour schemes: - Black seats with gray headlining - Brown seats with black headlining - Black seats with black headlining
The Grand Musso is fun and easy to drive; the tilt-adjustable steering wheel and telescopic steering column ensure the proper position for individual body types. The remote and cruise control switches are mounted on the steering wheel for instant access.

Exterior surroundings always in view
Four cameras mounted on the outside of the vehicle provide a real-world view of the immediate areas on all sides of the vehicle, making low-speed driving or parking safer and easier.

The latest infotainment
The Grand Musso’s infotainment system is equipped with a high-definition touchscreen, which supports Apple CarPlay and Google Android Auto. A radio, MP3 player, real-time broadcast recording, and USB port are built into the system. Users may connect their smartphone to the display to make phone calls, check messages and listen to music while on the road.
Heating coils have been installed in all the seats to keep occupants warm and cozy in wintry weather. The front seats are also ventilated to help cope with summer heat.

ROOMY AND COMFORTABLE SEATING
FRONT AND REAR

Ample room in back
The space inside the cabin of the Grand Musso has been optimized to provide for a flat floor in the second row while the rear seats incline 27 degrees for the most relaxing ride.

Driver seat power lumbar support
Ventilated front seats
Heated front and rear seats
The Grand Musso comes with automated systems that alert the driver to potential problems or take control of vehicular operation to avoid collisions and other kinds of accidents. As a result, both vehicular and road safety are enhanced.

- **Autonomous Emergency Braking (AEB)**: Helps avoid or mitigate collision effects by detecting moving or stalled vehicles and warning the driver in advance.

- **Lane Change Assist (LCA)**: Detects vehicles rapidly approaching from behind and flashes a warning light on the outside mirror to alert the driver.

- **Lane Departure Warning (LDW)**: Warns the driver whenever the vehicle begins to move out of its lane without the directional indicators being on in that direction.

- **Forward Collision Warning (FCW)**: Alerts the driver when another vehicle or pedestrian appears in the path of the vehicle.

- **High Beam Assist (HBA)**: Automatically lowers the high beams when an approaching vehicle is detected, making night driving easier.

- **Front Vehicle Start Alert (FVSA)**: Captures driver attention through a visual pop-up and audible sound that the vehicle directly in front is pulling away.

- **Rear Cross-Traffic Alert (RCTA)**: Assists the driver when backing up by detecting the presence of vehicles approaching or driving across the rear.

- **Blind Spot Detection (BSD)**: Detects other vehicles and the blind spot detection or indicator activated in the rear with a flashing light on the outside mirror.
SILKY SHIFTING AND POWERFUL PULLING

The Grand Musso comes with either the 2.0L e-XGDi 200T petrol engine or the 2.2L e-XDi 220 diesel engine, and the buyer can choose between five-link and leaf-spring rear suspension, both delivering outstanding handling and ride quality. With leaf springs attached in the rear, even more cargo can be brought along.

**PART-TIME 4WD**
Part-time four-wheel drive allows the driver to choose when to activate the system, depending upon changing conditions on or off the road. Operation safety and efficiency are the major in what the full-time 4WD system provides.

**AIR-CONDITIONING AUTOMATIC TRANSMISSION**
A high-speed range and a low-speed range of automatic transmission swiftly changes gear to maintain the maximum efficiency of the engine. Control of changes in speed is solid, making the automatic transmission a trustworthy system. Operation safety and efficiency are the major in what the full-time 4WD system provides.

**FIVE-LINK REAR SUSPENSION**
The axle is connected on the left and right to provide a smooth ride even when the road surface gets rough. Such a system is preferred for off-road operation.

**LEAF-SPRING REAR SUSPENSION**
Thanks to superb cargo towing capacity, the Grand Musso continues to ride smoothly and handle wonderfully even when heavy loads are brought along.

The axle is connected on the left and right to provide a smooth ride even when the road surface gets rough. Such a system is preferred for off-road operation.

**4WD**
Low-speed range

Part-time four-wheel drive allows the driver to choose when to activate the system, depending upon changing conditions on or off the road. Operation safety and efficiency are the major in what the full-time 4WD system provides.

*With automatic transmission

*Available with leaf-spring rear suspension
SAFETY FIRST AND FOREMOST

The Musso Grand has a total of six airbags, including curtain airbags that protect occupants in front and back. The electronic stability programme monitors road conditions and vehicular status constantly, adjusting engine output and braking whenever the driver is about to lose control. A locking differential improves traction on steep and slippery gradients and increases towing performance.

LOCKING DIFFERENTIAL

On muddy or snowy surfaces, one wheel may slip or lift into the air, in which case the locking differential forces both wheels on an axle to turn in unison, allowing the vehicle to recover its traction.

6 AIRBAGS

1. Driver’s airbag
2. Passenger’s airbag
3. Driver’s side airbag
4. Curtain airbags

SAFETY SYSTEMS & AIRBAGS
SOLID AND SILENT

The new-concept Quad Frame keeps more noise from the road surface and engine out of the cabin. Importantly, the design minimizes the possibility of injury to vehicular occupants in a collision.

Quiet interior

Enlarged rubber engine mounts lower engine noise and vibration when idling or in operation. The tops and bottoms of the doors and window frames are sealed in quadruple-layers to block out road and wind noise.

Unlike with a monocoque structure, the engine and suspension system are attached directly to the frame, blocking the heavy shock experienced when traveling over rough road surfaces or speed bumps and ensuring maximum handling stability.

The ‘crash zone’ refers to that part of frame that conveys the least shock from a frontal collision to the inside of the cabin. This ‘box’ is designed to absorb the force, thereby protecting the people inside.
The sportier short-body version of the Musso is ideal for getting around town and facilitates handling and parking in congested urban environments.
TWO BED LENGTHS AVAILABLE

Now there is choice of bed capacity to better suit individual requirements.
The Grand Musso and original Musso are great-looking vehicles that deliver what is expected of a pickup truck and a whole lot more!

CONVENIENCE | COLOUR GUIDE
**Features List**

### Mechanical
- Engine: 2.2L Diesel, 2.0L Petrol
- Transmission: 6MT, 6AT
- Drive Configuration: 2WD, Part-time 4WD
- Emissions: Euro 4, Euro 6

### Interior
- 75L Fuel Tank
- TPU (Thermoplastic Polyurethane) Seat Cover
- Premium Nappa Leather Seat Cover
- Sliding Front Headrests
- Heated Seats for Front and Rear
- Sliding Front Headrests
- Tinted Front & Rear Door Glass

### Exterior
- 18" Alloy Wheels 255/60 Tyres
- 17" Alloy Wheels 235/70 with XL Tyres
- 17" Steel Wheels 235/70 with XL Tyres
- Daytime Running Lamps
- Front & Rear Fog Lamps
- Safety Power Sunroof
- Pole Antenna
- Fashionable Roof Rack

### Convenience
- One-Touch Triple Turn-Signal Lamp
- Hands-Free 3.5" Mono TFT-LCD Trip Computer
- 7" Colour TFT-LCD Trip Computer
- Supervision Cluster with Illuminated Ignition Key Slot
- Electronic Cruise Control
- Integrated Blind Spot Detection (BSD)
- Electronic Stability Control (ESC)
- Anti-Lock Braking System (ABS)
- Tilt & Telescopic Steering Wheel
- Leather Steering Wheel Cover
- Speed-Sensitive Power Steering

### Safety
- Autonomous Emergency Braking System (AEBS)
- ABS & EBD with Rear Disc Brake
- Active Roll-Over Protection (ARP) and Side Collisions
- Door Impact Beams for Optimal Protection from Rear End Collisions
- High-Strength-Steel Construction
- Lane Change Assist (LCA)
- Vision VIN
- Tyre Pressure Monitoring System (TPMS)
- Speed-Sensitive Door Lock
