Go all out to lead the segment

The Rexton is now safer, stronger, more spacious, and more stylish than ever. This new authentic SUV drives wonderfully, while the technology inside has reached new heights of sophistication for your convenience, enjoyment and protection.

A SOLID PERFORMER WITH CHARISMATIC FLAIR
Retaining the SUV legacy while creating a unique style
The Rexton’s shoulder-wing design of radiator grille and rugged front lines project the classic SUV look, while the dynamic character line along the sides add stately beauty. The bold yet sophisticated feel is underscored by the front bumper outlined in chrome, the black, high-gloss skid-plate, and the side repeater and puddle lamp built onto the back of the side mirror.

MUSCULAR SUV WITH MAJESTIC CURVES

High-intensity-discharge headlamps for better night vision; LED daytime running lights, positioning lamps and directional indicators grouped in the upper lamp housing for simplicity and elegance

Side repeater and puddle lamp mounted on the back of the side mirror

Side cornering light function combined with fog lamp
DYNAMIC YET SIMPLE

Displaying a distinctive look in the back, the spoiler with high-mounted auxiliary stop light highlights the Rexton’s sportiness while improving safety, and the rear combination lamps are laid out horizontally to project width and a more imposing image from behind. A strip of chrome moulding crosses the badge center for added refinement, and the muffler has been hidden to enhance the overall simplicity of the rear design. The license plate illuminated by LED lights and the clean sill doors provide the perfect finishing touches to the exterior.
Using quality materials that set the cabin apart

The seats are ergonomically designed to conform to the shape of each body, thereby mitigating feelings of fatigue on long trips. They are covered in incredibly soft and relaxing Nappa leather that has been elegantly quilted. The interior ambience is further enhanced by the illuminated front door scuff, and lamps built into the instrument panel and door trims to create a subtle ambient light at night.

The interior package is available in four color schemes:
- Brown
- Black
- Black with beige headlining
- Ivory
Providing a full view of the environment outside
Four cameras have been mounted on the outside to provide a real-world view of the area on all sides of the vehicle, making low-speed driving or parking safer and easier. Moreover, the angle of the outside mirrors automatically tilts downward when the vehicle is put in reverse to assist the driver with parking.

Offering a rich infotainment environment inside
Rexton’s infotainment system comes with a large (9.2”) high-definition touchscreen, which supports Apple CarPlay and Google Android Auto. System features also include radio and MP3 player functions, digital audio broadcasting, real-time broadcast recording, and a USB port. Users may connect their smartphone to the display to make phone calls, check messages and listen to music while on the road.

* Available on both the navigation system with 9.2” display and Smart audio system with 8” display.

Offering comfort and roominess to driver and passengers alike.

Both seats in the first row are ventilated, while the seats in both the first and second rows are heated. Up to three different drivers can input their preferred settings for the driver’s seat and mirror positions, and both seats in front are power-adjustable. Legroom in the second row is outstanding, thanks to an optimised spatial design of the interior, and the second-row seats may be double-folded to maximise cargo-carrying capacity.

Folding seats to carry extra-long items

The second-row seat may also be double-folded to allow easy access to the third row.

EASY TO LOAD AND UNLOAD

Hauling more without sacrificing passenger space

Rexton can fit four golf bags widthwise in the cargo bay, thereby leaving the 2nd/row seats free for passengers to use.

The driver with arms full may open the tailgate without putting the items down. Simply keep the smart key in a pocket and stand near the back of the vehicle for just three seconds and the tailgate will pop open automatically.

SMART POWER TAILGATE
- Heavy tailgate opens and closes easily
- Simple switch control

CARGO CAPACITY
SAFER AND EASIER TO OPERATE

Employing electronics to anticipate and avoid accidents.

Driving always entails a certain amount of risk. However, the Rexton takes advantage of all the latest active safety systems to minimise risk and avoid potential accidents from occurring.

- **Autonomous Emergency Braking (AEB)**
  Helps avoid or mitigate collision effects by detecting moving or stalled vehicles and warning the driver in advance.

- **Lane Change Assist (LCA)**
  Detects vehicles rapidly approaching from behind and flashes a warning light on the outside mirror to alert the driver.

- **Traffic Sign Recognition (TSR)**
  Detects an upcoming traffic sign, applies character recognition software to read it, and relays the icon to the infotainment display.

- **Forward Collision Warning (FCW)**
  Alerts the driver when another vehicle or pedestrian appears in the path of the vehicle.

- **Blind Spot Detection (BSD)**
  Senses vehicles coming up in the blind spot behind or alongside and warns the driver with a flashing light on the outside mirror.

- **Lane Departure Warning (LDW)**
  Warns the driver whenever the vehicle begins to move out of its lane unless the directional indicators are on in that direction.

- **High Beam Assist (HBA)**
  Automatically lowers the high beams when an approaching vehicle is detected, making night driving easier.

- **Rear Cross-Traffic Alert (RCTA)**
  Assists the driver when backing up by detecting the presence of vehicles approaching on either side of the rear.
SMOOTH AND POWERFUL

Maintaining SUV authenticity with 4WD availability

The Rexton is powered by a 2.2L diesel engine and features enhanced independent rear suspension for superior handling and ride quality. Normally the vehicle runs in rear-wheel drive, which enhances handling stability by optimising weight distribution, but the driver is free to select one of two 4x4 wheel drive modes as needed. The Rexton can also tow loads up to three tons, the most for this class of SUV.

**2WD**

High-speed range

**4WD**

Low-speed range

**4WD**

High-speed range

**E-Tronic 7-speed automatic transmission**

**INDEPENDENT MULTILINK SUSPENSION IN THE REAR**

Independent suspension allows each wheel to move up, down, left, and right on its own for secure handling when the road surface gets rough. Shock from the road surface is dissipated through multiple links; little vibration is transferred to the body, and the ride quality is superb.

| Max. Power | 181 PS / 4,000 rpm |
| Max. Torque | 420 Nm / 1,600~2,600 rpm |
| Displacement | 2,157 CC |

**Diesel Engine Model**
e-XDi220

*With automatic transmission*
Keeping both noise and energy outside the cabin

The Rexton’s body is mounted on the new-concept ‘Quad Frame,’ which blocks most of the noise from the road surface and engine. The frame has been engineered specifically to minimize the possibility of injury to personnel occupants in a collision. The body has been reinforced as well, with stronger materials and expanded section sizes. In addition, the Rexton now has eight body mounts, the most in its class, improving ride quality and steering stability.

SOLID AND DEPENDABLE

High-density, high-tensile-strength steel plate makes up 81.7% of all the steel plate used in the Rexton’s body, providing superb rigidity and protection against deformation in a collision. As such, the safe space within the cabin has been maximized.

The frame members feature a quadruple-layered structure that exceeds the global standard for lateral collision safety. The ‘crash zone’ refers to that part of frame that conveys the most shock to the inside of the cabin. This ‘box’ is designed to absorb that force, thereby protecting the people inside.

APPLYING THE MOST ADVANCED AUTOMOTIVE HIGH-STRENGTH STEEL

Crash Zone Box

Quad Frame
MORE PROTECTION THAN EVER

Improving the safety of all occupants

The Rexton comes equipped with nine airbags, including a driver knee-airbag and second-row side airbags. The steering wheel and steering column are specially designed to absorb the force of a collision, minimizing the effect on the driver’s chest area, and active head restraints move forward in the event of a collision to close the gap between the occupant and the headrest to prevent whiplash.

Electronic Stability Programme (ESP) & Anti-Rollover Protection (ARP) & Brake Assist System (BAS)
Emergency Stop Signal (ESS) Hill Descent Control (HDC) Hill Start Assist (HSA)

9 AİR BAGS

Electronic Stability Programme (ESP) & Anti-Rollover Protective (ARP) & Brake Assist System (BAS)
Building a proud legacy

The Rexton is a better choice, everywhere you look. The frame body is unrivalled in strength and the interior is luxurious and roomy. Towing capacity is great, while the many driving assist systems and suspension system are designed to ensure the safest and smoothest ride possible. And the list just keeps going. The SUV you would be truly proud to own.

**WHEEL AND TYRE**
- 18" alloy wheels
- 255/60 tyres (diamond cut)
- 17" alloy wheels
- 235/70 tyres

**INTERIOR**
- Double-folding seats in 2nd-row
- TPU (thermoplastic polyurethane) seat upholstery
- Premium Nappa black leather seat upholstery
- Sliding front headrests
- Ventilated seats in front
- Heated seats for front and rear
- Automatic easy access mode for driver's seat
- Seat memory settings for three drivers, including seat & passenger's seat walk-in device
- Driver's seat power lumbar support
- 8 way power-adjustable driver's seat
- Voltage Stabilizer
- Trailer hitch mounting
- 70L fuel tank
- Electronic parking brake with auto-hold function (available with automatic transmission)
- Five-link rear suspension system with coil springs
- Double-wishbone front suspension system with coil springs
- Part-time 4WD with shifting on the fly (Available with diesel engine)
- 7-speed automatic transmission with 6-speed manual transmission with gear shift indicator
- e-XDi 220 2.2L diesel engine with SCR system

**MECHANICAL FEATURES LIST**
- Chrome inside door handle
- LED lamps in cabin
- Illuminated front-door scuff
- A-pillar cloth trim

**TECHNOLOGY**
- Daytime running lamps
- Safety powerd sunroof
- Invisible muffler
- Clean-sill door
- Aero-blade wipers
- LED license plate lights
- LED rear combination lamp with light guide
- Integrated LED front fog & cornering lamps
- Outside rearview mirrors with side repeater
- 25W high-intensity discharge (HID) headlamps
- Chrome coated on radiator grille
- Manually controlled tilt and telescopic steering high-glossy black accent
- Speed-sensitive power steering
- Hydraulic power steering
- e-Visual VIN
- Tyre pressure monitoring system (TPMS)
- Manual seatbelt height adjustment on B-pillar
- Seatbelt reminder for the driver and front passenger
- Airbag on/off switch for front passenger (both sides)
- 3-point centre seatbelt clamping locking tongue (CLT)
- Driver's knee airbag
- Curtain airbags for front and rear passengers
- Side airbags for front and rear passengers
- Dual airbags for driver and front passenger
- Electronic stability programme (ESP) with 4-channel anti-lock braking system
- Door impact beams for added protection from side collisions
- Ultra-rigid Quad Frame for greater strength, High-strength-steel construction
- Rear cross traffic Alert (RCTA)
- Blind spot detection (BSD)
- Traffic sign recognition (TSR)
- Autonomous emergency braking (AEB)

**AIR CLIMATE**
- Rear air vent on centre console
- Cluster Ionizer
- Cabin air quality control system
- Automatic defogging system

**CONVENIENCE**
- 2-channel touch sensing door handle
- 3-stage alarm
- Car connectivity (Apple Carplay & Google Android Auto)
- Bluetooth telephone connectivity with streamed audio
- Six speakers
- Standard 8" smart audio with rear-view camera
- Luggage cover and load net & grocery hook in cargo bay
- 3.5" Mono TFT-LCD trip computer
- Supervision cluster with Solar, noise-control windshield glass
- Folded and heated intermittent rear wiper
- Headlamp leveling device
